rainbow audio iq line

About us

Rainbow offers speakers, subwoofers, and amplifiers, setting the acoustical and technical standards for over 20 years, repeatedly confirmed by numerous national and international reviews and competition victories. Rainbow makes the audiophile wishes come true. We place utmost importance on pefect sound performance and a top quality manufacturing of our products that goes above and beyond expectations. Rainbow doesn't just sell speakers and amplifiers around the world. Rainbow develops them in its own materials and sound laboratory. In Germany for the entire world.
